NO TO MORE ABORTION

Help us stop pro-abortion amendments today

Parliament voted in May against restricting some late abortions. Now some MPs want to make abortion even more widespread. Pro-abortion amendments may be tabled at the next stage of the government's Human Fertilisation and Embryology Bill. Please write to your MP, asking him/her to oppose abortion. Some points to make to your MP:

- Easier access to abortion will leave women open to misinformation and pressure, and will increase abortion numbers (500-600 a day already).
- Drug-induced (i.e. RU-486) abortions can be much riskier than surgical ones. Even RU486's makers have admitted that it is traumatic and risky.
- Turning nurses into abortionists is a risk to women's health, and will deepen divisions between nurses opposed to abortion and those not opposed.
- 90% of the members of the Northern Ireland Assembly are against the proposal to extend the Abortion Act in the Province.
- The rule that a second doctor must approve an abortion should not be abolished. Women should have more opportunity for assistance and care – not fast-track abortions.
- Women deserve better than abortion.

Contact your MP, asking him/her to vote against any amendments extending abortion access, at the House of Commons, London, SW1A 0AA or on (020) 7219 3000. (To find out your MP's name or email him/her, visit www.spuc.org.uk/mps or contact SPUC by email at political@spuc.org.uk or on (020) 7820 3129.)
