Petition against the promotion of secret abortions in schools

Secret abortions among girls under the age of 16 (without their parents' knowledge or consent) have become standard practice in recent years. The government and its policy advisors are now promoting access to abortions through schools in the following ways:

- Establishing school-based health and sex clinics in all secondary schools;
- Giving school nurses and advisors (such as Connexions 'personal advisors') a clear remit to refer for abortions without informing parents;
- Insisting that information on how to get an abortion is included in sex education lessons – and making these lessons compulsory for all children.

We the undersigned call upon the Prime Minister to stop schools being used to promote or facilitate abortion. (Signatories must be aged 18 or over.)
